

## If you were selling *Groundcover News*, I would give you \$2 (or more!) right now.

I want to help you, and not just give you cash. I like supporting Groundcover News vendors because I know they're working for themselves. I know I'm not only buying a paper, but I'm also helping them invest in their own dignity. It's a relationship, not just a hand-out. So help me help you. Check the paper out— it's free to start— and maybe the next time we see each other I can be your customer.

### Get started for FREE.

*You'll get ten papers and a temporary badge to start. No cost, no obligation— you're the own making money.*
